👤 PROFILE

Motivated Full Stack Developer with hands-on experience building scalable web applications using modern frontend and backend technologies. I have professional experience developing RESTful APIs, responsive user interfaces, and database-driven applications. I enjoy solving complex problems and writing clean, maintainable code. I am a quick learner who adapts easily to new technologies and collaborative development environments. My long-term goal is to grow into a software engineer who delivers reliable, user-focused solutions.

📁 PROFESSIONAL EXPERIENCE

Full Stack Developer

Fleeting Trails

09/2025 – 06/2026 | Dhaka, Bangladesh.

- Developed and maintained full-stack web applications.
- Built and integrated RESTful APIs.
- Implemented responsive and user-friendly interfaces.
- Optimized database queries and application performance.
- Collaborated with cross-functional teams using Git and Agile.

Full Stack Developer Intern

Fleeting Trails

06/2025 – 08/2025 | Dhaka, Bangladesh

- Assisted in developing full-stack web applications.
- Implemented frontend features and backend APIs.
- Fixed bugs and improved application performance.
- Worked with databases and version control (Git).
- Collaborated with senior developers in an Agile environment.

🎓 EDUCATION

BSc in CSE

American International University, Bangladesh

2019 – 2025 | Dhaka, Bangladesh

HSC in Science

BAF Shaheen College, Chittagong.

2016 – 2018 | Chittagong, Bangladesh

SSC in Science

Chittagong Ideal High School

2011 – 2016 | Chittagong, Bangladesh

📁 PROJECTS

BajarBD Family Mart – Online Shopping Cart

Developed a full-stack e-commerce web application using **Spring Boot** for the backend and **Thymeleaf with CSS** for the frontend to manage product listings and customer shopping activities. Implemented service-layer logic using **OOP principles in Java**, ensuring modularity and reusability.

Link <https://github.com/SAFAR1119/bajarbd-family-mart> 📄

HRM Portal — Human Resource Management System

Developed an **HRM Portal** using **Next.js 14** and **TypeScript** with **Tailwind CSS**, featuring role-based access for Admin and Employee users. Admin can manage attendance, approve leave requests, edit payroll records, and submit performance reviews. Employees can log daily tasks, mark attendance, view salary slips, and track performance ratings. Built with a modular architecture using typed interfaces, client-side authentication, and persistent local storage.
